

Year 2

Spring 2

Sowing and Growing

Self Motivated	Healthy	Imagine and Create	Nurture	Exciting
We will be brave and stay positive when faced with new learning.	Recognise that keeping healthy and safe applies to all aspects of our lives including how we interact with our friends.	Use our imaginations to create our own story where our characters develop as they face problems.	We will consider the qualities we need to shine as the new term begins.	We will explore the varied and complex world around us as we learn about plant life and their life cycles.

As mathematicians we will:

We will start the term by investigating length and measure. We will look at centimetres and metres as well comparing measures.

After this, we will begin our fractions unit. Here we will start learning to recognise halves, quarters and thirds.

As writers we will:

We will start by looking at writing to entertain through a rags to riches tale. During our writing this term there will be a focus on linking ideas between sentences and across paragraphs by using a variety of conjunctions.

As readers we will:

Retrieve information accurately from non-fiction texts which links to our geography learning regarding the coasts. We will also look at identifying powerful vocabulary and finding antonyms and synonyms linked to this.

As scientists we will:

We will be investigating the complex structures of flowering plants and trees. From this we will be looking to identify and name common flowers that grow around us as well as deciduous and evergreen trees.

RE

We will be using the Understanding Christianity Unit of work.

History

As historians we will:

None this half term.

Geography

As geographers we will:

We will be comparing and contrasting the coastline and seaside towns of the United Kingdom and a non-European country.

Art

As artists we will:

We will be using observation and sculpting skills to design and build a relief tile linked to our project.

Computing

As programmers we will:

We are looking to understand and use a variety of tools to create spreadsheets.

DT

As designers we will:

None this half term

Music

As musicians we will:

None this half term

PE

As athletes we will:

In PE this term we will be looking to make use of our previous learning on ball skills and using them to innovate or create a game.
